

VK SERIES - High capacity, low height, log carrying grapple

Trusted and used by many of the largest sawmills in Europe, the VK grapple is the ideal log handling grapple for excavators, materials handlers, and loader cranes in sawmill yards; where large capacity, yet low height is a must.

The compact height of the VK series provides greater machine stability and allows greater reach.

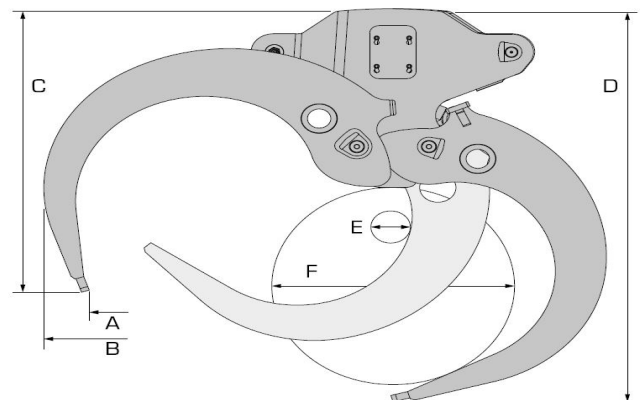

Capacity ranges from 1.0m² to 1.5m².

- ✓ High power to weight ratio, with large cylinders as standard
- ✓ Optional lock valve can be fitted to hydraulic cylinder
- ✓ Well protected hydraulic cylinders and hoses
- ✓ Leg extensions are available for pole handling to avoid grip marks on the material being lifted
- ✓ Manufactured from high strength Swedish alloy steel
- ✓ Compatible rotator: Indexator's IR20
